Information about the incident/claim.

Date of Incident: For years Location of Incident: Alley from Thompson St. to school.

Describe the incident/claim in detail: According to our neighbors, they have been trying to get our Alley to the school paved. It has been going on for decades. Bus traffic + school traffic create a lot of dust and gravel in our driveway. It is a health hazard for the elderly especially with so many elderly with breathing problems on this Alley. I drove around town and we are the only Alley I could see that wasn't paved, even the Alley between Thompson St + Erickson St is paved and there is hardly any traffic on that Alley. I heard you were trying to get the school to pitch in. Funds should not be taken from Education for this decade long problem. It should be a city problem. We pay double the property tax we paid in Michigan.

I appreciate the effort of trying to solve the problem on our alley. However it is not working very well. Yesterday when it was windy, there were continuous clouds of dust.

Winter is approaching and when the snow plows come, they throw gravel into our yard with the snow. It wrecks the lawn mower blades.

School has now started so the traffic has increased. I will take up a petition if needed.

Thank You,

Janita Ellis
